If more than one search is submitted, please prioritize searches in order of need.

Please provide a detailed statement of the search topic, and describe as specifically as possible the subject matter to be searched. Include the elected species or structures; keywords, synonyms, acronyms, and registry numbers, and combine with the concept or utility of the invention. Define any terms that may have a special meaning. Give examples or relevant citations, authors, etc, if known. Please attach a copy of the cover sheet, pertinent claims, and abstract.

Title of Invention: ELECTRONIC TRADING SYSTEM FOR ELECTRICITY FORWARDS

Inventors (please provide full names): ANDREW HAUSMAN

Earliest Priority Filing Date: 9-1-99

For Sequence Searches Only Please include all pertinent information (parent, child, divisional, or issued patent numbers) along with the appropriate serial number.

Please search all required Template fields for 705. The invention is directed to a trading system/on-line auction of electricity forwards. I've attached a copy of the claims for your reference. I think the novelty lies in the relationship between the parties which is somewhat defined in claims 1+2.

Thanks, Sandra
